2023 ALASKA WING CONFERENCE

Mission Staff Requirements

Presenters: *Capt Julie Rivera, Alaska Wing Public Affairs staff*

Information of the requirements for each position, for example, the FEMA courses, and what prerequisites are needed for x or y position. Discuss this chart, and the steps for the position example if you want to be a mission observer, you have to be first MSA, MRO, MS, have 100 and 700, and others. I think this is important because people like to have one position but don't look at the requirements, and they feel bad because they don't achieve and don't know the first step.

sUAS in Civil Air Patrol
