

CAPF 160 - DELIBERATE RISK ASSESSMENT WORKSHEET

1. ACTIVITY				2. DATE (DD/MM/YYYY)	
3. PREPARED BY					
a. Name (Last, First, Middle Initial)			b. Rank		c. Duty Title/Position
d. Unit		e. Email		f. Telephone	
g. Signature of Preparer					
Five steps of Risk Management: Identify the hazards => Assess the Risks => Develop Controls & Make Decisions => Implement Controls => Supervise and Evaluate					
4. SUB- ACTIVITY, TASK, SOURCE <i>Example: Food service, food storage</i>	5. HAZARD / OUTCOME <i>Example: Food spoilage; food poisoning</i>	6. INITIAL RISK <i>Example: Severity = Moderate; Likelihood = Likely. Initial Risk = M</i> See matrix on page 3	7. CONTROLS <i>Example: Coolers with ice, replenished daily for food storage</i>	8. HOW TO IMPLEMENT / WHO WILL IMPLEMENT <i>Example: Load (number of) coolers , initial purchase (number of packs/ bags) ice; purchase ice and conduct daily ice checks and runs to ensure coolers are stocked</i> Who: SM (Name or Role)	9. RESIDUAL RISK <i>Example: Resulting Likelihood = Seldom. Residual Risk = L</i> See matrix on page 3

				Who:	
ADDITIONAL SPACES FOR ITEMS 4 THROUGH 9 PROVIDED ON PAGE 2					
10. HIGHEST RESIDUAL RISK LEVEL - (Select the highest risk level value in Column 9, with all controls implemented):					
EXTREMELY HIGH		HIGH		MEDIUM	
NOTE: ALL RESIDUAL RISKS ASSESSED AS "H" OR "EH" MUST BE APPROVED BY CAP/CC					
11. OVERALL SUPERVISION PLAN AND RECOMMENDED COURSE OF ACTION:					
12. APPROVAL OR DISAPPROVAL OF MISSION OR ACTIVITY <div style="display: flex; justify-content: space-around; margin-top: 5px;"> APPROVE DISAPPROVE </div>					
a. Name (Last, First, Middle Initial)		b. Rank		c. Duty Title/Position	
d. Signature of Approval Authority					

CAPF 160 - DELIBERATE RISK ASSESSMENT WORKSHEET

(Use CAPF 160HL if additional space is needed)

4. SUB- ACTIVITY, TASK, SOURCE	5. HAZARD / OUTCOME	6. INITIAL RISK	7. CONTROL	8. HOW TO IMPLEMENT / WHO WILL IMPLEMENT	9. RESIDUAL RISK

CAPF 160 - DELIBERATE RISK ASSESSMENT WORKSHEET

Risk Assessment Matrix		Likelihood (expected frequency)				
		Frequent: Continuous, regular, or inevitable occurrences	Likely: Several or numerous occurrences	Occasional: Sporadic or intermittent occurrences	Seldom: Infrequent occurrences	Unlikely: Possible occurrences but improbable
Severity (expected consequence)		A	B	C	D	E
Catastrophic: Death, unacceptable loss or damage, mission failure, or unit readiness eliminated	I	EH	EH	H	H	M
Critical: Severe injury, illness, loss, or damage; significantly degraded unit readiness or mission capability	II	EH	H	H	M	L
Moderate: Minor injury, illness, loss, or damage; somewhat degraded unit readiness or mission capability	III	H	M	M	L	L
Negligible: Minimal injury, loss, or damage; little or no impact to unit readiness or mission capability	IV	M	L	L	L	L

Legend: EH – extremely high risk H – high risk M – medium risk L – low risk

NOTE: All residual risks identified as "H" or "EH" must be approved by CAP/CC

13. RISK ASSESSMENT REVIEW

a. Date	b. Name (Last, First)	c. Rank	d. Duty Title/Position	e. Signature of Reviewer

14. AFTER-ACTION FEEDBACK AND LESSONS LEARNED

Instructions for Completing CAPF 160 - Deliberate Risk Assessment Worksheet	
1. Activity: Briefly describe the overall Activity for which the deliberate risk assessment is being conducted (e.g., SAREX, Wing Encampment, NCSA, etc.).	10. Highest Residual Risk After Controls Are Implemented: Determine the highest residual risk level from block 9. NOTE: Any activity with residual risk identified as "EH" or "H" must be approved by CAP/CC.
2. Date: The date of the activity.	
3. Prepared By: Information provided by the individual conducting the risk assessment for the activity	
4. Sub-Activity, Task, Source: Describe each sub-activity, task, and/or source of potential damage, injury, or illness. Examples: <i>Sports Activity, relay race; Food preparation and service, food storage</i>	11. Supervision Plan and Recommended Course of Action: Completed by preparer. Summarize the overall risk management plan for the Activity, including identification of individual responsible for on-going evaluation of plan and supervision of real time risk management.
5. Hazard and Outcome: Describe the most likely event that could lead to an outcome (i.e. damage, injury, or illness). Examples: <i>Running and falling - sprains, bruises, cuts; Food spoilage - food poisoning</i>	12. Approval/Disapproval of Activity: The leader in charge of the event (Activity Director, Commander, Incident Commander, etc.) approves or disapproves the Activity based on the overall risk assessment in Block 10.
6. Initial Risk: Use the Risk Assessment Matrix on page 3 to determine the likelihood and severity of damage, injury, or illness before controls are decided and implemented. Select the resulting risk level. Example: <i>If the severity of a sprain is determined to be moderate and the likelihood is determined to be occasional before controls are implemented, the initial risk is "M"</i>	13. Risk Assessment Review: For on-going activities, the approval authority (Block 12) should appoint individuals with sufficient oversight of the activity to periodically review risk controls to determine if they are effective or if overall risk has changed. If the overall risk rises above the level already approved, operations should cease until the appropriate approval authority is contacted and approves continued operations. Signature signifies review complete and event continues as planned.
7. Control: Describe or explain the risk controls and/or methods to be used to reduce the risk level associated with the hazard and outcome identified Example: <i>The control for a sprain might be to mark uneven surfaces with small orange flags and brief participants on their location</i>	14. After-Action Feedback and Lessons Learned: Provide specific input on the effectiveness of risk controls and their contribution to mission success or failure. Include recommendations for new or revised controls, practical solutions, or alternate actions. Submit and brief valid lessons learned as outlined in CAPR 160-1.
8. How to Implement / Who Will Implement: Briefly describe how each control will be implemented and the name of the individual who has primary responsibility for implementing and monitoring the risk control. Example: <i>Assign surface evaluation, flag marking, and briefing to a senior member by name</i>	Additional Guidance: Use CAPF 160HL if additional rows are needed for hazard assessments.
9. Residual Risk Level: Using the same severity as in the initial risk assessment, use the Risk Assessment Matrix on page 3 to determine the resulting likelihood of damage, injury, or illness after controls are decided and implemented. Select the resulting risk level. Example: <i>If the resulting likelihood of a sprain is seldom after controls are implemented, the residual risk is "L"</i>
